

TOYLAND AT THE -GLASS BLOCK-

TOYLAND this year is on the Third Floor, where we have more room, better light, fresh air and better facilities for handling the great crowds which at this Merry Christmas time fairly pack our store to its full capacity. Toyland is Happy Land. Roam through Toyland, ask questions, price everything, ask our willing clerks to demonstrate the use of any and all of our wonderful and ingenious mechanical Engines, Flying Machines, Trains, Motor Boats, Automobiles and the hundred other wonderful mechanical toys. See the things that go zipping and clicking and darting about on the tables specially prepared for them.

Come and see the children. See their eyes already big, grow large with wonder and longing. Come and be a child once more yourself. It will pay you and will mean much happiness for the little one you bring. This great store is Santa Claus' Headquarters. Here the children love to come and see the things Santa makes. There never was in this town a gathering of Toys such as this one. No fancy prices because of the season, just honest prices, fair profits but a big business—greater than ever in our history. Come and bring the children.

FREE—To every child accompanied by an adult on Saturday morning we will give a wonderful new Bubble Blower, a toy which will give great pleasure to the little ones. Remember an adult must be with the child. The Bubble Blower will be given away in our Toyland—Third Floor.
